## PROFESSIONAL SUMMARY

---

Developed and implemented software solutions as a Full-stack Software Developer, leveraging frontend and backend expertise. Used to act in different product scopes at the same time, handling data crossover and maintaining flow compatibility. While working for a health insurance company and one of the biggest banks in Brazil, created exceptional products, driving revenue growth, and optimizing user experiences. Seeking role to apply technical skills and contribute to frontend technologies.

## WORK EXPERIENCE

---

### Mid-Software Developer

Jul 2021 - Present

CI&T • Campinas, Brazil

- Designed and developed code for 3 products at the same time, which has crossover points, so had to carefully ensuring that wouldn't have any bugs.
- Started learning how to test mobile accessibility and vulnerability improving the experience of customers (almost 10% of Brazilian population have a disability) interactions with the products.
- Assess information to propose and strategize the implementation of new features or alterations to existing ones, communicate technical specifications to the team and delegate tasks and assisting if necessary.
- Orchestrate backend solutions between different data sources, reduced one of those flows in ½ of execution time.
- Maintain and improve CI/CD implementation, mostly pipelines/services, added layers of testing ensuring 80%-90% of coverage.
- Setup backend services like 3 BFFs, a few AWS services, caching, API gateway, configuration persistence.
- Analyze production environment incidents and provide possible solutions to mitigate impact.

### Junior Software Developer

Mar 2021 - Jun 2021

CI&T • Campinas, Brazil

- Evaluated simple interrelationships between programs, such as whether a contemplated change in one part of a program would cause unwanted results in a related part.
- Developed at every level of a testing pyramid, since unit testing, mutant test until developing cypress integration tests.
- Created fully customized Angular components following UX prototyping, ensuring best practices of loosely coupled structure and easy maintainability.
- Understood better how to write, modify, integrate and test software code for Internet and mobile applications.
- Influenced others on learning and implementing better code quality achieving less product bugs.
- Joined a team developing products for schedule and attend medical appointments online, this product had more than 20 users accessing per minute and tremendous impact in the company.

**Intern Software Developer**  
CI&T • Campinas

Feb 2020 - Feb 2021

- Learned best practices of coding, testing and architecture to produce a software, especially about clean arch and angular components.
- Acted on more than 10 product incidents, searching logs at Graylog, understanding bugs and helping the final client, with help.
- Introduced in different meetings and rituals of Agile, got knowledge of basic squad metrics, understood product analytics.
- Implemented one complete product flow pairing with the senior developer, since the mobile code, the backend code, until the database.
- Wrote, tested and improved code through code review done by 3 other senior teammates.
- Joined one driven technology studies, to learn a few new technologies like Angular and improve Java knowledge.

## EDUCATION

---

**Computer Science – Bachelor Degree**

Feb 2021 - Jul 2024

Centro Universitario Wyden Unimetrocamp • Campinas, Brazil

Programming Fundamentals; Computer Architecture; Operating Systems; Database Management; Software Engineering.

**System's Development – Technical Degree**

Feb 2018 - Feb 2021

Colegio Tecnico Da Unicamp Campinas • Campinas, Brazil

Object-Oriented Programming and Data structures; Databases; Web Development; Internet of Things (IoT); Mobile Applications.

## CERTIFICATIONS

---

- Google Project Management – Aug 2023
- AWS Certified Practitioner – Oct 2022

## SKILLS

---

- Java – Advanced
- Git – Advanced
- Angular – Advanced
- AWS – Medium
- Typescript – Medium
- RxJS – Advanced
- React/NextJs – Medium
- NgRX – Advanced
- Spring Boot – Medium
- Jest + Testbed – Advanced

## LANGUAGE

---

- English – Professional Proficiency
- Portuguese – Native
